

Letter of Endorsement for Bryan Nelson
NAEMT Election, Region 1

It is my pleasure to provide a letter of endorsement for Bryan Nelson to represent NAEMT's Region 1.

Bryan is a Clinical Quality Specialist for the Cardiothoracic Surgery and ECLS Programs with Lehigh Valley Heart and Vascular Institute. With a background as a paramedic, educator, and administrator with experience in 911 and flight as a critical care provider. His experience from the pre-hospital environment as well as his roles within the healthcare systems truly makes him a well-rounded candidate that can speak to multiple fronts of EMS, education, and research.

I first became acquainted with Bryan in 2020 when elected to the NAEMT Board as Region 3 Director. Our first encounter was pleasant and found many items that we shared in common, including a true passion to keep EMS moving in a progressive and positive direction.

Bryan would be an progressive advocate and passionate leader for your organization. This is why I would support and endorse Bryan for the Region 1 Director role. He has served the NAEMT very well on the committees and groups that he has been assigned to, to further recognize and support the NAEMT with him on the team speaks

Bryan always stands willing to help in any manner he can. He encourages people to contact him with any EMS related issue and personal issues if he can assist. If he doesn't know the answer, he will find someone who does.

I have no doubt Bryan Nelson will be an effective representative for NAEMT Region 1 and I urge you to give him careful consideration as you review the candidates and cast your vote.

Thanks, and Best Regards,

Eric Van Dusen NR-P, FP-C
