

Letter of endorsement

RE: Bryan Nelson-NAEMT East Central Region-Board of Director-Candidate

Bryan Nelson has served as NAEMT Region I representative in the past with tireless dedication and passion. His representation is inclusive of all EMS service models and practitioners not only in his region but across the nation as well as the membership of NAEMT internationally.

Bryan is skilled at utilizing resources and leadership skills in both prehospital and hospital environments to achieve results that will enhance quality clinical care for patients and elevate EMS practitioners' educational knowledge and skills. As a member of the board of directors for the National Registry of EMTs, Bryan is committed to ensuring EMS practitioners entering the prehospital emergency medical field have passed a vetted competency licensure test to practice.

Bryan is dedicated to the advocacy and positive promotion of the EMS profession and fulfilling the mission of NAEMT as the voice of that profession. He has a strong connection to the EMS practitioners in the field having experience as a firefighter paramedic, critical care flight paramedic and combat engineer.

I have worked with Bryan on the OEMS listening group since 2020 and wholeheartedly endorse Bryan Nelson for election to the NAEMT Board of Directors representing the East Central Region for the National Association of EMTs.

Sincerely,

Jules K. Scadden, Paramedic
Vice Chair-EMS/Rescue Section
National Volunteer Rescue Section
Director – Dysart Ambulance Service - Iowa
