

### TRAUMA EDUCATION

#### Prehospital Trauma Life Support/PHTLS

16 CE hours. In cooperation with American College of Surgeons Committee on Trauma (ACS-COT).

- World's premier prehospital emergency trauma care program.
- Addresses multi-system trauma.
- Reinforces rapid and orderly assessment, immediate treatment of life-threatening problems, and minimizing delays in initiating transport to an appropriate destination.

#### Tactical Combat Casualty Care — Medical Personnel/TCCC-MP

16 CE hours. Only TCCC course endorsed by Co-TCCC, Joint Trauma System, and American College of Surgeons. Uses PHTLS military textbook.

- Introduces evidence-based, life-saving techniques and strategies for providing the best trauma care on the battlefield.
- Fully compliant with the Department of Defense Committee on Tactical Combat Casualty Care (Co-TCCC) guidelines.

#### Tactical Combat Casualty Care — All Combatants/TCCC-AC

8 CE hours. Specifically for non-medical military personnel.

- Recent combat casualty care experience demonstrates that many life-saving interventions on the battlefield can be delivered by non-medical personnel, either in support of a combat medic or in the absence of one.
- Provides first responder skills appropriate for soldiers, sailors, airmen and marines that have been extracted from the TCCC for Medical Personnel curriculum (elements of care that should be performed by medics excluded).

#### Tactical Emergency Casualty Care/TECC

16 CE hours. Endorsed by American College of Surgeons. Meets Committee on TECC guidelines.

- Teaches civilian tactical EMS for EMS practitioners called upon to respond to a mass casualty or active shooter event.
- Covers hemorrhage control; surgical airway control and needle decompression; strategies for treating wounded responders in threatening environments; caring for pediatric patients; and dragging/carrying victims to safety.

#### All Hazards Disaster Response/AHDR

8 CE hours.

- Prepares EMS practitioners at all levels to respond to the many types of disaster scenarios they may encounter – floods, tornadoes, terror attacks, etc.
- Teaches how to analyze potential threats, assess available resources, and create a response plan that will save lives.

### NAEMT COURSES:

- High-quality, evidence-based education critically important to preparing EMS practitioners to successfully treat patients in all types of circumstances.

### Flexible Formats

- Online/classroom combination formats for flexible, convenient learning.
- Online curriculum with videos and visual aids offers a rich and dynamic learning experience.

### CAPCE Approved NREMT Recognized

- Approved for CE credit by the Commission on Accreditation for Pre-Hospital Continuing Education.
- Recognized for recertification requirements by the National Registry.

### Advancing The EMS Profession

- Proceeds from NAEMT education help support the advancement of the EMS profession through advocacy, education and research.

## MEDICAL EDUCATION

### Advanced Medical Life Support/AMLS

16 CE hours. Endorsed by the National Association of EMS Physicians.

- Uses latest, evidence-based research.
- Addresses how to assess and manage the most common medical crises in patients and emphasizes critical thinking.
- Offered in multiple course types to meet the needs of practitioners at all levels.
- AMLS Basics brings the best of the AMLS course to a level appropriate for EMTs.

### Emergency Pediatric Care/EPC

16 CE hours. Uses the American Academy of Pediatrics' PEPP textbook.

- Addresses the full spectrum of pediatric emergency illnesses, injuries and scenarios.
- Teaches to rapidly and accurately assess life-threatening situations using the Pediatric Assessment Triangle (PAT).
- Incorporates family-centered care

throughout all scenarios.

### Advanced Geriatric & Core Geriatric Education for EMS/GEMS

8 CE hours each course.

Developed by NAEMT in partnership with the American Geriatrics Society.

- Provides EMS practitioners at all levels the skills and knowledge to handle the unique medical, social, environmental and communications challenges of older adults.
- Empowers EMS practitioners to help improve medical outcomes and quality of life for geriatric patients.

### Psychological Trauma in EMS Patients/PTEP

8 CE hours.

- Provides resources to help alleviate patients' hidden wounds (intense fear, stress and pain during a medical emergency).
- Educates EMS practitioners about the biological underpinnings of psychological trauma and teaches EMS practitioners strategies to alleviate patients' distress.

## COMING SOON!

### Critical Care Test Preparation/CCTP

Critical care and flight paramedics are frequently required to hold the Critical Care Paramedic or Flight Paramedic certification from the International Board of Specialty Certifications (IBSC). Critical Care Test Preparation (CCTP) helps prepare students to take these IBSC certification exams.

### Community Paramedicine Practitioner Course

With hundreds of active mobile integrated healthcare-community paramedicine programs across the country and many more in development, EMS agencies are seeking ways to prepare their EMS workforce to provide MIH-CP services. The new Community Paramedicine Practitioner Course is a semester-long course that covers the typical patient care provided through these programs. The course will help students preparing to take the IBSC Community Paramedic certification exam.

### IT'S EASY TO BECOME AN NAEMT INSTRUCTOR

Visit [NAEMT.org/Education](http://NAEMT.org/Education) for details.

## OPERATIONAL EDUCATION

### EMS Safety

8 CE hours.

- Promotes a culture of safety by increasing awareness and understanding of EMS safety standards and practices.
- Trains EMS practitioners to identify and remove the hazards in daily tasks, such as distracted drivers, violent patients, chronic stress, etc., to reduce the number of injuries and eliminate the fatalities.

### EMS Vehicle Operator Safety/EVOS

8 or 16 CE hours.

- Addresses the knowledge gap that leads to injuries and deaths.
- Focuses on the behaviors that need to be changed to create a culture of safe driving.
- Features analyses of both common and catastrophic collisions.
- Challenges EMS practitioners to reconsider their preconceptions about safe vehicle operations.

### Principles of Ethics and Personal Leadership/PEPL

16 CE hours.

- Provides EMS and mobile healthcare practitioners at all levels with the knowledge and skills needed to effectively interact with patients and their families, other medical personnel, co-workers, supervisors, and the community.
- Helps students identify their personal responsibility and accountability for ethical decision-making.

### A Personalized Online Continuing Education Solution

An online service offering EMS practitioners access to high-quality continuing education, plus an easy-to-use personal dashboard. Allows users to check the status of their recertification or state licensure requirements in a one-glance view. Get the best online CE accessible wherever you are and whenever you need it.
